Dear "Name":

Upon the recommendation of the faculty in "Department", I am pleased to grant you provisional admission into their Master of Science program beginning "Term". You will be required to take up to seven undergraduate deficiency courses along with your graduate course work: "Class 1..................", "Class 2..................", "Class 3............", "Class 4..............." or "Class 5...............", "Class 6........................", "Class 7..........................", and "Class 8..................". Please submit your Enrollment Form no later than April 15, 2017 to accept or decline our offer.

Your academic advisor is "Advisor" at (303) 384-"ext" or e-mail "email"@mines.edu. Please contact your advisor if you have questions related to your program or program admission. Your Campus Wide Identification number (CWID) is "applicant CWID". Please retain your CWID number as you will need it to obtain access to campus facilities and student accounts.

At this time no departmental financial aid is available. If aid becomes available at a later date, we will notify you as soon as possible.

United States military students can qualify for in-state tuition at Colorado School of Mines. To apply for in-state tuition, please have the "Military Tuition Classification " form completed by your Base Educational Office and returned it to our Registrar’s Office. Please check with the Registrar's Office for deadline dates. Failure to submit this form by the deadline may result in non-resident tuition assessment without the right of appeal. If you have any questions regarding in-state tuition, please contact registrar@mines.edu.

Please remember to submit your Enrollment Form.

If you plan to attend, please review and complete the following checklist:

- Print and review your Admissions Packet as it contains important information on housing, orientation, registration, residency, tuition, fees, and Student Health Center information and requirements.
Log in to your online application to see which credentials, if any, are still unofficial. You will need to have official transcripts and verification of degrees awarded sent to the Graduate Office before June. You will need to have your official GRE and if required, official TOEFL scores, sent before you will be permitted to register. You may need to read your application instruction page again to determine why your credentials are marked ‘Unofficial’.

Account Claim information, used to set up your Trailhead.mines.edu account, will be added to this letter after your Intent to Enroll is processed. This will occur 24-48 business hours after your Intent to Enroll is submitted.

Set up a meeting with your advisor to determine your course program.

Register for your classes through Trailhead.

Congratulations on your acceptance to Colorado School of Mines. We look forward to you being an important part of this campus.

Sincerely,

Dr. Bettina Voelker
Interim Dean of Graduate Studies
