

We are delighted that you are joining our Mines community!

This summer, we are offering a limited number of incoming transfer students residing in Colorado the opportunity to begin taking courses through our

Summer E³: Early Entry Enrollment Program

Summer E³ Program Benefits

- Summer E³ students get a head start on core courses (all of which meet graduation requirements).
- Courses are taken in a more relaxed summer setting when classes are smaller and the pace of life on campus is more leisurely.
- Summer E³ students make new friends ahead of the fall semester and become familiar with the expectations of the Mines academic experience.

How it Works

Incoming Colorado transfer students begin taking courses during our Summer One and/or Summer Two term rather than starting in the originally planned Fall term.

These summer sessions are compressed terms allowing completion of a full semester course in a six-week period; unless otherwise noted. Services and facilities such as summer tutoring and academic assistance, the Student Health Center, Outdoor Recreation Center, the Student Recreation Center and the Student Center are open throughout the summer and you will have access to it all. Once the Summer term ends and the course/grade post to your student record, it will be applied to the official Mines' degree-seeking transcript.

Dates

The Summer One term begins on May 15th, 2017 and ends on June 23rd, 2017.

The Summer Two term begins on June 26th, 2017 and ends on August 4th, 2017.

Commuter Only Program

This is a commuter **only** program. On-campus housing is **not** available for Summer E³ students.
