

Job Description – Analyst

Gustavson Associates, Boulder, CO

gustavson@gustavson.com

2 April 2008

Gustavson Associates has a 25-year track record of quality consulting to industry and governments worldwide on all aspects of natural resource evaluations. The firm consists of geologists, geophysicists, engineers, economists and financial experts. For more information, please see www.gustavson.com

Gustavson Associates is looking for a full-time analyst with a background in business, economics and engineering to do consulting work on oil & gas and mining projects. Recent company projects include

- Valuation of a Kazakh oil field
- Appraisal of a fee interest in an Alaskan oil field
- Economic assessment of participation in an Egyptian natural gas production sharing contract
- Tendering of a world class copper deposit in Afghanistan
- Evaluation of oil and gas prospects in Guyana, Cote d'Ivoire and Albania
- Development of the natural gas sector in Afghanistan
- Due diligence concerning marine imports of aggregates into California

The analyst should have skills in finance, accounting, decision analysis, and the economic evaluation of projects. The ideal candidate will have a few years of work experience, be a good problem-solver, proficient with Microsoft Office, and be able to work closely with geologists and engineers. Occasional travel may be required.
