Junior Professional Program

KEY ACCOUNTABILITIES

- Conduct, participate and/or coordinate in analytical studies on topics relevant for policy definition and implementation for the countries in the region.
- Identify key economic, social, and institutional challenges for selected countries, providing facts, analyses, and perspectives that help promote a sound dialogue with governments and enhance the Bank's country vision.
- Support the regional economic advisor in monitoring economic developments in the region
- Preparing relevant technical notes/presentations
- Preparing briefings on economic issues
- Participate in policy dialogue activities to support officials in dealing with specific key economic issues
- Help coordinate and/or review the research work of outside researchers hired by the Bank, ensuring that they meet the quality standards and research criteria of the Bank.

COMPETENCIES

- **Analysis and Problem Solving:** The ability to make critical decisions based on systematic analysis and sound judgment.
- **Initiative and Adaptability:** Ability to act independently and resourcefully in responding to work demands. Ability to adjust to multiple demands, shifting priorities, ambiguity and change.
- **Teamwork:** Ability to take initiative to assist others; share knowledge and information; express disagreements tactfully and demonstrated ability to be a member of multidisciplinary and multicultural project teams.
- **Communications:** Ability to engage others, adapting one's communication to the needs, interests and style of the audience. Expressing facts and ideas clearly and in an organized manner in writing and in speech.
- **Planning and Organizational Skills:** Demonstrated organizational capability and ability to carry out multiple and detailed tasks.

The IDB offers a competitive benefits and compensation package, including relocation expenses
