

**Ms. Amy Dubetz**  
**Student Trustee**

Ms. Dubetz is a senior at the Colorado School of Mines studying Chemical Engineering. She is also minoring in Public Affairs for Engineers through the McBride Honors Program and spent a semester studying chemical engineering in Budapest, Hungary. After graduation, she hopes to obtain a graduate degree in Renewable Energy and go to work in biofuels.

Ms. Dubetz has been extensively involved with CSM student government. She works part time with the Student Development and Academic Services as a tutor. She also does undergraduate research in the chemical engineering department with thin film characterization techniques.

Ms. Dubetz will serve as the Student Trustee until June 30, 2009.
