

Expansion of A.C.E. Mission Statement Item #3

Debbie Cockburn

“Promote a campus spirit of mutual cooperation and respect”

My hope is that with the placement of ACE members on school committees, i.e. Strategic Plan, Safety Committee, etc., the classified staff will come to be thought of and included in school-wide planning. Having our voices heard, or even just having a presence, in committees and meetings provides the opportunity to show that there are viable, intelligent, capable people who are sometimes thought of only as “non-faculty”. The more our presence and contributions are acknowledged, the more willing people will feel they are part of the campus community.
