

Expansion of A.C.E. Mission Statement Item #2

Erin Miller

“Facilitate effective communication between the Association's membership and the CSM Community”

We the ACE Council need to be sure to communicate by what ever means to reach all of the Associations members and the campus at large. We need to set up meetings with all of the different groups on campus to see what is needed of our members and what ‘they’ can do for our members. This means using e-mail, campus in brief, inter-campus mail and meeting in person. The ACE Council is the responsible party in seeing that communication between all campus members is functioning in a manor that is positive and constructive.
