

Expansion of A.C.E. Mission Statement Item #4

Nan Braddock

“Promote the highest degree of professionalism within the Association's membership and support activities to enhance professional performance”

To me, this means that each and every one of us is dedicated to acting and reacting responsibly and professionally across the campus community, even if we are in disagreement with the person, organization or activity.

I also believe we need to create an atmosphere where we can provide assistance to our constituents that will allow everyone the possibility to enhance their personal skills and to create opportunities for each other.
