Nurture Your Nature is an inclusive identity event that welcomes everyone and helps them better understand who they are, why they are, and what they want to be. His revisionary approach to story telling conceptualizes difference into common and familiar struggles while building empathy amongst different groups of people.

Matt was born without legs, but he lives to the most of his abilities, just like everyone else. Matt offers a new way of thinking and a fresh perspective to his audiences, sharing his firsthand accounts of living a unique lifestyle. In his public speaking career, he helps people understand their own situation a little better and tries to explain why people act the way they do based on the challenges they are experiencing.
