

# Mines Park 1900's Emergency Evacuation Plan

## Plan Ahead

**Learn the location of the exits in your building,** not just the entrance you usually come in. Know the location of the nearest **fire alarm pull station in your building.**

## Evacuation Procedure during a Building Alarm or Notification

**Take essential belongings (keys, wallet, phone) if immediately at hand.**

**Encourage** others to leave, close doors behind you.

**Follow exit signs and leave** the building by the nearest exit.

**Move away from the building (at least 75 -100 feet or across the street). Community Center #1 (1901 19<sup>th</sup> Street) is open if it is safe.**

**Do not re-enter your building** until told it is okay.

**Do not interfere with the Fire Department.**

If you see someone wearing a red Building Evacuation Team vest, direct your questions to that individual.

## Mines Park is Equipped with Alarms:

**Audible Alert:** repeating pulsed tone.

**Visible Alert:** white strobes located throughout the buildings.

## If you discover a fire:

**Alert** people in the area of the need to evacuate.

**Activate** the nearest fire alarm pull station (typically by exits).

**Call** 911 from a safe location and give the operator all details.

**Once outside find a Public Safety Officer or a Fire Department member,** the Fire Department will want to talk to you.
