COVID-19

Due to the challenges posed by COVID-19, and with upholding the CDC guidelines for social distancing, the Custodial department has implemented extra measures for campus safety that will take priority over normal routine services. These changes are listed below. We ask for your patience and encourage you to contact us with any questions or feedback.

Custodial Cleaning Plan for COVID-19

Priorities

- Restrooms
- Classrooms and Teaching Labs
- Entrance Inside and Out
- Stairways/Elevators
- Hallways
- Common Areas
- Offices
- Laboratories

Custodial will disinfect with a Mister Machine or Sprayer. The misting sprayers use a fogging system to spray disinfectants on all exposed surfaces in an area. Custodial has enough sprayers that every custodial shift uses one resulting in most areas of campus being disinfected twice a day.

Clean, disinfect, and wipe down all high traffic and common touch points to include the objects and surfaces outlined in the area sections below:

Special Cleaning for COVID Outbreaks

To enter and clean an area of a confirmed COVID-19 case, Custodial staff will follow all EHS directions and guidelines. Whenever possible, a 72-hour waiting period is implemented prior to entry into the space. When entry is granted staff are required to use PPE including respiratory protection (N95 mask or air purifying respirator), safety glasses/face shield, disposable Tyvek coveralls or washable lab coat, and disposable gloves.
Cleaning and entering of confirmed COVID-19 Location
  o Spray all entrance door handles with disinfecting solution (3m 25A) prior to entering.
  o Cordon off specified area with caution tape and do not enter signs.
  o Using the mister or sprayer full of disinfectant, spray all high traffic and common touch points in public areas where the infected individual has been
  o After appropriate dwell time, surface and touch point will be wiped
  o A HEPA filtered vacuum will be used on all carpeted areas
  o Hard floor surfaces will be cleaned and mopped with a disinfectant solution

Please note these changes will require extra labor hours which may result in other tasks not being done as often as in the past.

**Update: Campus Office Trash Receptical Change Over**

*Campus Facilities has completed and replaced all existing office desk trash containers with hanging mini black trash containers. Facilities Staff will no longer empty the small desk recycle or the attached waste container. This helps to ensure the safety of Campus Faculty, Staff and Custodial by reducing the risk of COVID-19, while also promoting recycling campus wide. Office occupants may empty their trash/recycle containers into larger trash/recycle Slim Jim receptacles that have been placed in hallways, kitchens, and other common areas.*

**Inclement Weather Days**

Custodians are responsible for hand snow shoveling at the exterior entrance to the campus buildings and keeping interior entrances dry. This additional duty takes them away from their routine indoor duties. During inclement weather Custodial Services will perform duties in the following order:

- Snow removal - always top priority
- Disinfecting all touch points
- Restrooms
- Trash
- Classrooms cleaning.
- Public areas
- Offices if time allows. This may mean due to our bi-weekly schedule for office cleaning, they could be skipped if necessary.
Recycling/Trash

- Recycle Slim Jim’s will be emptied twice per week on Tuesday and Thursday by Custodial Staff. (Daily if needed)
- Trash removed daily Mon-Fri from most buildings.
- Custodial Staff does not empty desk side recycle containers, please break down empty boxes for recycle.

Non-Routine Service Requests

To schedule non-routine services such as upholstery cleaning, window blind cleaning...etc. Please submit a request for an estimate through the work order system or contact Custodial Services Manager Jesse Vigil at ext. 2435 or jmvigil@mines.edu.

Facilities Management will contact you and provided an estimate. If agreed upon Jesse will schedule for the work to be performed.

In order to avoid pests and odors if you have an event scheduled that will have food and beverage, please use the work order system to notify Custodial Staff to pick up the trash when the event is finished.

Outside Window Cleaning

Due to budget cuts and increased Custodial duties window cleaning is a lower priority and may not get done.

Due to many factors, (special equipment needs, weather...etc.) we provide window cleaning services for the outside windows that can be reached with available equipment and limited inside cleaning every two years.

We can however, provide these services through a contractor at your department's expense. If you would like to have your windows cleaned outside of the scheduled frequency, please use the work order system to submit your requests.

Pest Control - Indoors

This service is provided by Facilities Management Custodial Division, through in-house staff or a private contractor. If you have a need for this service, please use the work order system to schedule a time to perform the service.

Locking and Unlocking Doors

Custodial is responsible for unlocking all building entries that are not on the electronic access system on the main campus. Buildings and classrooms are unlocked at the same time (6:30 AM) Monday through Friday. Custodial staff will not unlock and provide access to buildings after hours when they are normally secured. Custodial staff will not unlock individual offices for faculty or staff members who have forgotten their keys. Custodial Staff will lock any unoccupied room when finished cleaning. These limitations are not intended to deny services or create inconvenience; it is our policy to protect University security of assets and personnel safety.
