Subject: Re: Mines-Faculty: Expression of Interest for RFP Student Signature Experience
Date: Wednesday, October 28, 2020 11:13:51 AM

Hi

Thanks for the reminder. I am planning to develop a proposal on the development of a remote fully immersive VR-based field study tool so that Mines students and groups of international students can meet in a virtual environment and conduct a field survey. This proposal will be developed by the faculty from geology, mining, and other interested departments which are interested in remote VR-based field study.

Let me know if more is needed for planning purposes.

regards

Subject: Mines-Faculty: Expression of Interest for RFP Student Signature Experience

Are you working on your proposal for the Student Signature Experience? Remember, send a short paragraph as an Expression of Interest to senate@mines.edu<<mailto:senate@mines.edu>> by November 2nd. We are asking for an Expression of Interest to determine the number and amount of proposals.

Currently, we have two sessions scheduled to provide proposal assistance: Nov. 9th and Nov. 12th. We could add another session if necessary. The sessions aim to provide preliminary feedback and an opportunity to connect with others if they might have similar ideas. After you submit your Expression of Interest, Julie Lambert coordinate adding you to one of the proposal assistance sessions.

ANDREW HERRING

Senate President
