| 2:05-2:15 pm | Provost / Academic Affairs | Rick Holz |
| 2:15-2:25 pm | Registrar's Office | Paul Myskiw |
| 2:25-2:30 pm | Approval of Minutes – January 26, 2021 | Andy Herring |
| 2:30-3:25 pm | Committee Updates | |
| | <ul style="list-style-type: none">• <u>MINES@150 Student Signature Experience Project Process</u><ul style="list-style-type: none">○ Implementation Phase and Closing Process – Confirmation of Responsible Faculty, Scheduling, and Organization• <u>Research Council</u>• <u>Survey Committee</u>• <u>Core Curriculum Committee</u> | Robin Bullock Yvette Kuiper Robin Bullock Alexis Sitchler |
| 3:25-3:30 pm | Briefings, Information Items and Updates | |
| 3:30-3:45 pm | Undergraduate Council Updates | Jeff King |
| | <i>*Approved Undergraduate Council new courses and course changes have been added to the end of this agenda as informational FYI-only items.</i> | |
| 1.1 | CHEMICAL and BIOLOGICAL ENGINEERING [status: CIM 12/8; UGC: 1/27] 1 program change: BS-CHE: BS in Chemical Engineering <i>These changes surround double-counting in the 4+1 combined bachelor's and master's degrees. CBE is one of the few departments that does not currently allow double counting so this change in text has been added for the students' benefit. This does not include the four required core courses. Minor updates have been done to the program elective lists.</i> <i>Barankin informs Councilors that the double counting was brought to the attention of Council due to this being a change in the Catalog language for undergraduate students. The double counting had not been present in the Catalog previously. It has been done to parallel what is already in the graduate Catalog. Championed by Michael Barankin.</i> | |
| 3:45-3:55 pm | Graduate Council Updates | Neal Sullivan |
| 2.1 | HYDROLOGIC SCIENCE and ENGINEERING [status: CIM 12/9; GC: 2/3] 1 program change: MSPHD-HY: MS & PhD – Hydrologic Sci & Eng <i>This update expands the number of courses that students can take under the Hydrology, Policy, and Management (HPM) track. The course list is being expanded for two reasons: (1) in response</i> | |

to combined-degree students who want to complete their HSE degree and the HPM track in two semesters and need more course options; (2) to keep pace with the growing number of social science-based courses being developed on campus that are relevant to water professionals.

Championed by David Benson.

3:55-4:00 pm **Adjourn**

Andy Herring

Approved Undergraduate New Courses

CSCI478: Introduction to Bioinformatics

Approved Undergraduate Course Changes

GEGN307: Petrology

GEGN401: Mineral Deposits
