# MINES ENERGY VENTURE SUMMIT: INVESTING IN THE GLOBAL ENERGY TRANSITION

MARCH 3, 2020 | GOLDEN, CO

Apply for a chance to pitch to several top-ranked corporate venture funds in the energy sector. Sponsored by the Mines Center for Entrepreneurship and Innovation and the Mines Office of Research and Technology Transfer, this all-day program will showcase innovative energy-related technologies

applicable to the oil and gas sector, e.g., technologies that enhance facility reliability or operations efficiency.

**APPLICATION DEADLINE: FEBRUARY 14, 2020**

Selected companies will be notified by February 18, 2020

Schlumberger

ExxonMobil

nexa

Selected companies will be invited to present their technologies to the Investor Group on March 3, 2020, in Golden. While preference may be given to those with proven commercialized or prototyped technologies, we will also give consideration to innovators who can demonstrate a credible technology development path toward solving relevant challenges and will consider collaborative partnerships. The most promising technology, as decided by the judges based on merit of potential value and/or demonstrated technology development capacity, will be eligible for partnerships and investments by the investors present.

\* Contact the Mines Center for Entrepreneurship and Innovation for more information.
