The GEODE Schedule Planner is a web-based registration schedule planner for use by students to create the perfect class schedule and to eliminate time-consuming schedule generation. **The GEODE Schedule Planner IS NOT THE REGISTRATION SYSTEM, IT IS A SCHEDULE PLANNER!** In other words, you can plan your schedule using the GEODE tool and send the CRN #’s to the registration system as a convenience, but it is the registration system that actually adds and drops the classes for you.

Please download the [Quick Use Guide](#) to using the GEODE Schedule Planner. GEODE is not an acronym, is simply a branding name that students voted on to be the “rock” of their new registration efforts.
