The GEODE Schedule Planner is a web-based registration schedule planner for use by students to create the perfect class schedule and to eliminate time-consuming schedule generation. It can now be used to add or drop classes straight from the tool without leaving the system.

To plan the perfect class schedule, login to Trailhead. Click on the GEODE Scheduler Widget:

Fun Fact: GEODE is not an acronym, it is simply a branding name that students voted on to be the “rock” of their new registration efforts.
