Declaring a Double Major To declare a double major, you must complete the Double Degree Declaration form. A student wishing to complete two Bachelor of Science degrees must complete the first degree plus a minimum of thirty (30.0) hours specific to the second-degree program. The thirty hours for the second degree may not include free electives and may not be double counted with any credit used to complete the first degree. The degree plan for the second degree must be approved by the advisor, the department head, and the Registrar’s Office representing Academic Affairs. When two degrees are completed concurrently, the first degree is the one with fewer total hours required for graduation. In the case of a returning student, the first degree is the originally completed degree. The two degrees may be in different colleges. The degree plan may include courses from multiple departments. Different catalogs may be used, one for each degree program. The student receives two separate diplomas. The transcript lists both degrees. A student may not earn two degrees in the same content area because the course requirements and content do not significantly differ. The following combinations are not allowable: BS in Engineering, Mechanical Specialty & BS in Mechanical Engineering BS in Engineering, Electrical Specialty & BS in Electrical Engineering BS in Engineering, Environmental Specialty & BS in Environmental Engineering BS in Engineering, Civil Specialty & BS in Civil Engineering BS in Mathematics & Computer Science & BS in Applied Math and Statistics BS in Mathematics & Computer Science & BS in Computer Science BS in Chemical Engineering & BS in Chemical and Biochemical Engineering BS in Engineering (with any specialty) and a new BSCE, BSEVE, BSME or BSEE.
