Complete the required course information and select the override(s) you are wanting and then submit the form. Be sure to only submit request once.

- Your request will be sent to the appropriate department and if approved, the override will be entered.
- If approved, you will receive an email confirmation and will then be able to register for the class.

Registration PINs

Many undergraduate students will be required to obtain a Registration PIN before being able to register. To review who is required to obtain a PIN, visit here: https://www.mines.edu/registrar/registration-pins/

If you are required to obtain a PIN through the advising process, you should connect with CASA or your major advisor to get your PIN prior to your registration time.

Note: Combined students may need a PIN based on their undergraduate program. Graduate students do not need a PIN to register.
