Transfer Student Information

Guaranteed Transfer

Colorado School of Mines is a signatory to the Colorado Statewide Engineering Articulation Agreement. Beginning with admissions in 2003-2004, this agreement determines transferability of coursework for engineering students in the State of Colorado. Credits earned more than 10 years previously will not transfer.

Additionally, Colorado School of Mines has formal transfer agreements with Red Rocks Community College (RRCC), Front Range Community College (FRCC), Community College of Aurora (CCA), Arapahoe Community College (ACC), and Community College of Denver (CCD).

Physical Activities Courses**	PAGN Elective

* Design courses rarely transfer

** Courses must be taken in separate semesters

- Only courses completed with grades of “C” or better will be considered for acceptance. Credit that is recorded as “pass”, “satisfactory”, or “credit” at institutions that do not equate this classification to a C or better grade will not transfer. Departments may stipulate a higher minimum grade. More information can be found in our bulletin here.
- Please keep course syllabus and coursework (such as exams, quizzes, class notes and homework) from all math and science courses as departments often request course materials for review prior to granting transfer credit. Physics exams will always be required for review.
- If you have only completed up through Calculus II, you may be required to complete a one-credit hour Calculus II short-form course to bridge any material not covered in the course being transferred to CSM. Calculus II at Mines contains content that is taught in Calculus III at other institutions. Furthermore, completion of a short form for Calculus III may be required to transfer in Calculus III from other institutions.
- The successful completion of Pathways courses at another Colorado institutions may be granted upon your enrollment at Mines. Please refer to the relevant articulation agreements for course equivalencies.
